Music Ninja by NinGenius - Privacy Policy

Music Ninja is available through a subscription at www.musicninja.com. This Privacy Policy describes our collection, use, and disclosure of personal information through the online version of the Music Ninja app.

Data Privacy Commitment
NinGenius Studios LLC was founded with a commitment to serve teachers and students, providing software that is educationally valuable and 100% secure. We will never use teacher or student PII (Personal Identifiable Information) for any purpose other than the educational purposes for which it is collected. We will never sell or share PII with any third party, or seek to profit from it in any way. As a token of our commitment to use PII responsibly and securely, we have joined the nation-wide Student Privacy Pledge 2020, and we safeguard all acquired data according to NIST Cybersecurity Framework Version 1.1.

Personal Information Security
All PII is stored on secure Microsoft Azure servers and is only accessible by the student's teacher. All PII becomes inaccessible to all parties once the teacher's account becomes inactive, and is permanently deleted once the account has remained inactive for over 36 months. We take reasonable and appropriate measures to protect all collected PII from loss, misuse and unauthorized access, disclosure, and destruction. However, no electronic storage method or data transmission over the internet can be guaranteed to be 100% secure.

Teacher Personal Information
We collect the name and a single email address from each teacher or administrator for login, contact, and support purposes. This email address will not be shared with any other parties, and is kept private from students and all other third parties. Teachers also provide us with the name of their school and a name for each class they wish to set up. This information is viewable only by authorized users who login under the teacher's user ID.

Student Personal Information
The only information collected from students is their First and Last Name, Grade Level, and a student-created username and password. Each student also selects one or more musical instrument and chooses a class from among the teacher-provided list. This information is used to organize students within the teacher's Music Ninja account, and is not visible to, shared with, or sold to any third parties. Student names, instruments, ninja avatars, and game progress are not visible to the public or to other students, and can only be viewed by the teacher to whom they are linked through the teacher ID.

Log Data
All student logins, play time, and achievement data is recorded and made available to the teacher under which they are enrolled. Neither parents nor the public have access to student log data.

Data Sharing
We do not share personal information or data with any other person, party, or company.

Email Address Usage
Teacher email addresses are collected with each subscription, and may be used for occasional contact, unless or until a teacher unsubscribes from such contact. Every email we send has an "unsubscribe" link option, making it easy and secure for persons to remove themselves from our mailing list. This email list is kept secure and is never shared with any other third parties. Students DO NOT provide an email address at any time for any purpose in the Music Ninja program or related websites.

Cookies
We do not require the use of “cookies” on our websites or in our applications. Any cookies used by our Microsoft Azure server will provide the option to either accept or refuse such cookies.

Third Party Providers
We may employ third party companies and individuals to provide services related to our business needs, but no such providers will have any access to student or teacher personal data.

Links to Other Sites
Our online application does not contain links to any other sites.

Children’s Privacy & Parental Control
The only data we collect from children under (or above) the age of 13 is name, grade level, username, and password, which allows their teacher to organize them into classes and monitor their progress. There is no portal through which parents or any persons other than the teacher can access any student personal information, and parents can only monitor their child’s account by having their child log in for them or through requesting information from the teacher. Parents can request to have their child’s account and personal information deleted through their teacher, as the teacher has administrative rights to do so at any time.

Contact Us
Only the NinGenius Online administrators Anthony Winters and Curtis Winters have access to the data described in this privacy policy. If you have questions or concerns, contact our privacy administrator, Curtis Winters, at support@ningeniusmusic.com. Our mailing address is NinGenius Studios, 896 W 2370 N, Provo, UT 84604. Phone: (801) 762-7102.
