

NinGenius Music Online

Privacy Policy

NinGenius Music Online is available through an annual subscription at www.stepwisepublications.com. This Privacy Policy describes our collection, use, and disclosure of personal information through the online version of the NinGenius Music application.

Personal Information Security

All collected personal information is stored on a secure server and is accessible only to the teacher, will become unavailable to all parties once the teacher's account becomes inactivated, and will be permanently deleted once the account has stayed inactive for over 12 months. All personal information is visible only to NinGenius Music Online administrators, and will never be sold to third parties. We will take reasonable and appropriate measures to protect all collected personal information from loss, misuse and unauthorized access, disclosure, and destruction. However, no electronic storage method or data transmission over the internet can be guaranteed to be 100% secure.

Teacher Personal Information

We collect the name and a single email address from each teacher or administrator for login, contact, and support purposes. This email address will not be shared with any other parties and is kept private from students and all other third parties. Teachers also provide us with the name of their school and a name for each class they wish to set up. This information is viewable only by authorized users who login under the teacher's user ID.

Student Personal Information

The only information collected from students is First and Last Name, Instrument, and Grade Level. This information is used to organize students within the teacher's NinGenius account, and is not visible to, shared with, or sold to any third parties including companies, educational institutions, government agencies, or any other person. Each student's name, instrument, and ninja avatar (which shows a basic indicator of their progress through the belt color) can be seen by other students in their same class.

Log Data

All student logins, play time, and achievement data is recorded and made available to only the teacher under which they are enrolled. A basic indicator of student achievement is visible to students in the same class for motivational purposes, but all other log data is kept private from all persons except the teacher.

Data Sharing

We do not share personal information or data with any other person, party, or company.

Use of Teacher Email Addresses

Teacher email addresses are collected with each subscription, and may be used for occasional contact, unless or until a teacher unsubscribes from such contact. Every email we send has an "unsubscribe" link option, making it easy and secure for persons to remove themselves from our email list. This email list is kept secure and is never shared with any other third parties.

Cookies

We do not use "cookies" explicitly on our websites or in our applications. Any cookies used by our Microsoft Azure server will provide the option to either accept or refuse such cookies.

Third Party Providers

We may employ third party companies and individuals to provide services related to our business needs, but no such providers will have any access to student or teacher personal data.

Links to Other Sites

Our online application does not contain links to any other sites.

Children's Privacy & Parental Control

The only data we collect from children under (or above) the age of 13 is name, musical instrument, and grade level, which allows their teacher to organize them into classes and monitor their progress. There is no portal through which parents or any persons other than the teacher can access any student personal information, and parents can only monitor their child's account by having their child log in for them or requesting information from the teacher. Parents can request to have their child's account and personal information deleted through their teacher, as the teacher has administrative rights to do so at any time.

Contact Us

Only Anthony Winters and Curtis Winters have access to the data described in this privacy policy. If you have questions or concerns about this privacy policy, contact our privacy administrator, Curtis Winters, at curtis@stepwisepublications.com, 896 W 2370 N, Provo, UT 84604, (801) 762-7102.
